Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Election/Restrictions

1. Claims 1-14 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim.

Election was made **without** traverse in the reply filed on 05-14-2004.

Information Disclosure Statement

2. The information disclosure statement filed 07-30-2003 fails to comply with 37 CFR 1.98(a)(3) because it does not include a concise explanation of the relevance, as it is presently understood by the individual designated in 37 CFR 1.56(c) most knowledgeable about the content of the information, of each patent listed that is not in the English language, namely DE 3201263. Consequently, this foreign reference has not been considered.

Claim Objections

3. Claims 15 and 16 are objected to because of the following informalities: In the last line of claims 15 and 16, delete “, for use in sealing applications”. Appropriate correction is required.

Allowable Subject Matter

4. Claims 15-20 are allowed.

5. The following is an examiner's statement of reasons for allowance: Regarding claim 15, Suggs et al. (US#5785322) discloses a spiral wound gasket wherein the density of the sealing material is varied. However, Suggs fails to disclose the density of the sealing material between the adjacent overlapping turns of the band being higher than the density of the opposing flange faces of the sealing material. It would not have been obvious to one of ordinary skill in the art to modify Suggs such that the density of the sealing material between the adjacent overlapping

Art Unit: 3677

turns of the band was higher than the density of the opposing flange faces of the sealing material.

Claim 16 includes the allowable subject matter discussed above with respect to claim 15 and is therefore allowable for at least the same reason(s).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See PTO-892.

7. This application is in condition for allowance except for the above formal matters. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213. A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
